Reference: MB Docket No. 04-233

Dear Sirs:

I am writing to comment on docket number 04-233. The proposed expansion in the LPFM service poses a serious threat to radio stations like KLOVE 89.1 FM radio here in Amarillo, Texas. My family has listened to and supported KLOVE for many years. As a resident of Amarillo, Texas, we are truly blessed to have such quality music available to the 400,000 or so residents in the listening audience. Should KLOVE be taken off of the air or forced off of the air, it will have a very negative impact on our community and in a time when our nation needs to turn it's thoughts and faith to God, we need all of the help we can receive.

KLOVE serves many communities across the nation in ways that secular stations will never achieve. They not only provide the headline news, they also offer the stories of "good deeds" that no other station will have the courage to run.

Please carefully and prayerfully consider not enacting any changes to federal communication laws that would allow or encourage stations such as KLOVE to be negatively affected.

Kind regards,  
Frank Stepp
